Mr. Robinson [W.J.],
Frank Haynes and
myself - and arrived
at the Hacienda at
8 o'clock P.M. Sept 9 -

Wednesday, Sept 11
Riding over the ranch
most all day - and
find it simply wonder-
ful - grass on the moun-
tains and plains as
high as the horse's bel-
lies - to half way up
their sides and mi-
les of corn from that
just coming up to
that 18 feet tall and
fields now being
husked - Breakfast
dinner and supper of
Chicken tortillas

Rice, Miami Villa
Huron & Madison

Thursday Sept 12
Reading all day and have found a constant repetition of yesterday

Friday Sept 13. 01
Rode to the great falls and to the great Spring which bursts from the mountain side and pours from one hole a stream 20 or 30 feet wide and 2 to 3 feet deep - such a sight as I never before saw -
The falls consist of 2 streams 20 or 30 feet wide with a perpendicular fall of about 150 feet but said to be 180 ft -

a sight worth coming a long distance to see. Have seen much grass much timber and corn and sugar cane. Bloss hn + Hillen

Saturday 14 1901

Rode to the "Old Mines" - which are said to have been worked hundreds of years ago - for silver. The tunnel is 15 to 20 feet wide and no one knows how long - we tried to go to the end but had only a poor lantern with light from one side only - and this would not burn thus proving us to be foolish Virgins

Saturday Sept 14. Cont'd
We did not return
till very after dark
and were very
tired.
We were in the hard-
est rain storm I
ever witnessed and
did not hear a dry
thread on us. Blephen

Sunday 15.
Have not done very
much except to look
over the property at
the house and make
a plan of the premis-
es. Blephen

Monday 16. Sept.
Rode to San Martin
to see a lot of cattle
corraled up - only
found one hundred

Monday Sept 16 cont'd
Finished our view of the ranch except the great Valley on the South end of the ranch - 20 rods to Lemoncitos, got dinner - and then rode till after dark on our land I have never seen equalled and sat in extent and returned to Lemoncitos - where we stay tonight

Tuesday 17th Sept.
Started for Micos at 7 3.0 and Mr. Haynes found we had a dense thicket for a guide for instead of reaching Micos at 11 45 we did not get there till

near fire and work and encountered two awful showers and I rode five hours with my boots full water and not a dry thread. Had to change all my clothes.

Train to Tampico was four hours late so Myers Haynes and Robinson were in season to take it and left me to sleep on the soft side of a plank. Supped of cakes and bananas .25

Haynes & Robinson took the train for Tampico at 7.15

And I stay at Mucoo till tomorrow at 11.45

The Mesa Hacienda
contains 86,000 acres
Railroad line there is
ft. 18 Kilometers or 14
miles - 2000 head of
cattle guaranteed
and 1500 head of wild
or unbranded cattle
and R.R. ties sufficient
to pay for the property
in four years -
Now Begins The Climb
The scenery is beyond
description - Cafe Roscoe
on the C.P. is not "in it"
We are now at Station
Ver the most
beautiful scenery on
Earth we have passed

At 9.38 Arrived at
and
are now surrounded
by green fields of sprout-
th land corn sugar
cane and grass till
there seems no limit
as the mountain
top seems almost
reached - but noth-
ing like the scenery
we have passed
since dinner have
I ever seen or dream-
ed of.
at 11.30 we are the di-
vide and going down
hill, but shall go up
again
Arrived at Cardenas
at 4 P.M and leave 4.10
15 or 20 engines are
here on top of the
mountain.

Passed the first field of beans I have seen in Mexico just out of Cardenas. We are now passing over what appears to be a great valley but the land lies in waves like the ocean and is covered with the same kind of cactus as grows on the Mojave desert except they are not so large.

At Las Tablas at 4.55 on the great plain all forests have been cut off and only a little shrub of cedar trees remain. At San Bartolo at 5.20 a few more cedar trees have started up and a settlement of adobe and shacks. Good Station

Thursday Cont'd
Very much cooler than at Mecos - a cool fuls good
At Cerritos at 6 P.M. and have passed through a continuous field of corn at least 20,000 acres - from corn planted two or three weeks to corn in the ear Cerritos has 2000 people Short cars also
6th at La Montana Mountains close in on both sides most too dark to write
9th at San Luis Potosi and found the Docket I had twice wired for at the telegraph office

with orders to collect
$124.85 - Tendered
60 cts U.S currency and
the Agent would not re-
ceive it at more than
200 per cent - or 17/100
less than the rate of ex-
change and demanded
$4.85 Mex - in ad-
dition -

I told the Operator
to wire H.R. Nickerson
Mexico City and see
what he would say -
or to Mr. Robinson
and I guessed either
of them would know
what to do - this I
said after humbug-
ging with them for
near 3/4 of an hour
The operator was obliging
messages to different
persons and out then

by messenger and
wired banks and
exchange offices but
got no satisfactory
replies - at least so
he said - but I had
no idea he wired
one of them - all done
to humbug one but
when I told him
I was willing to take
215# per 100 - and
asked him to see
Mr Robinson - he
soon got an answer
Take my
money at 215 - this
done I was soon in
the sleeping car
and had to get into a
bed that had been occ
cupied by some one
else - it was Hobsons
choice that or none

a tank house with
one hundred tank of 5000
gallons. well with gas
oline engine (Foos)
of about 3 H.P. an old
well in south end
of ranch.
The large vineyard is
absolutely worthless.

Tuesday Oct. 1. Cont'd
or worse than that
for the old stumps
have to be dug up and
carted off -
The 10 acres of Ham Do.
Kay grapes are in ex-
ceedingly bad shape
but a portion of them
may be saved by
expensive work -
The Jr orchard
must all be dug
up - this will cost
money -
The lemon orchard
can never bear
fruit without irri-
gation - and had
best be dug up
The two olive orchards
ten or fifteen years
old - have never
brought a gallon of
olives - and are

Varieties worthless for any purpose except to work over into Mission Olives this will take at least three years and lots of hard work -

The barns are all out of repair - so are all the out houses. The dwelling house has been terribly shaken by earthquake. The roof leaks and the plaster is falling The kitchen floor is worn out and must be relaid The fences are broken down - the posts rotted off and innumerable holes for rabbits and ground
